

LIVING ROOM PROJECT

The design of the room aims to create the luxurious and glamorous look desired by using neat shapes and contemporary materials with a touch of Art Deco. Dark oak veneer is selected as finish of bespoke wall system, Meridiani drink cabinet, and Catalan console in the entrance hall to match the contemporary and minimalist style of the dark oak stairs. Carrara marble is chosen for the top of Meridiani Bloom coffee and side tables. Chrome and mirror are other two materials used purposely as they give brightness against the muted tone of the walls and the minimalist and neat flooring, besides adding a touch of glamour and Art Deco to the interiors. Meridiani Bacon corner sofa features simple lines and is upholstered with leather and linen and decorated with scattered velvet cushions. The Tulip armchair adds a touch of Art Deco style with its leather upholstery in a bold colour and curvy shape with chrome leg. Both are marked by a neutral silk/wool rug by Minotti Collection.
